

Name: Hunter Robinson

Year: 03

Major: Animal Science Pre-Professional

Qualifications:

College of Agriculture Ambassador

Director of Logistics for Beat Bama Food Drive

Work at Auburn University Meat Laboratory

Collegiate Cattlemen's and Cattlewoman's Member

Young Farmers Member

Platform: I would serve as the Vice President for the College of Agriculture in order to help bring together all members that our great college has. From the students, the school council, our SGA, as well as our amazing professors and staff. I believe that as a unit we can bring ideas together in order to exceed what we thought was possible. I want every student to know exactly what all our school has to offer and to never miss out on any opportunity. I want to increase involvement and relationships between the clubs, students, and alumni in order to help our college grow even further than it already has. Most importantly, I want to ensure that graduates from the college of agriculture reaches their full potential and has every opportunity in their career field once they walk across that stage.

Name: Collin Dorrill

Year: 02

Major: Agriculture Economics

Qualifications:

SGA Senator for the College of Agriculture

Agribusiness Club Member

Young Farmers Member

Social Fraternity Member

Platform: As President of the College of Agriculture, I would make the students' opinion my first priority. The Ag Council is meant to be a liaison for students and I want to be more available for students to come forward and share their concerns and ideas about our college. Also, after serving on Ag Council for the past year I've been able to see the many great clubs and organizations of the College of Ag operating. I would like to get the clubs and organizations input into putting on events that would get more students involved in them. The College of Ag is a special place to us all and I'd love to get the opportunity to serve and make it an even better place with everyone's help.
