Name: Samantha Jeter

Year: 03

Major: Marketing

Qualifications:

SGA Cabinet

Freshman Forum

KAO Cabinet

Freshman Forum

Platform: I believe I would be a great School's Council Vice President because I have a heart for the students and alumni of this school. I desire to intentionally gather student insight on how we can better the business school. From my time in business council, I have learned what it means to connect with faculty in order to benefit the student. I believe in connecting students and faculty together under one voice. My hope is to promote the vision students have set before the business council and to accomplish the goals we have set before us. At the end of the day, I would be honored to serve in this role and to get to know the students of this school better.

Name: Lucy Brown

Year: 02

Major: Finance

Qualifications:

Alpha Chi Omega Vice President of Ritual and Fraternity Appreciation

Impact Project Coordinator

Platform: I believe that I would be a great Senator because of my strong passion for the business school. A lesson that I learned in my Supply Chain Management class is how successful businesses are never satisfied but are constantly evolving and trying to be the best. Although the Harbert College of Business and Auburn University are amazing, I believe I can make both of them even better. I decided to run for senator largely because I saw areas that could be changed and wanted to be able to make it happen. After asking many of my friends in the business school what area in our college they thought could be better, almost all of them described how big the school is and how business students easily go unseen and unheard. I want to give students more of a voice by adding a student survey/ link to where business students can submit changes they want to see around campus or in the business school. I also will work on expanding the hours of Horton Hardgrave Hall and adding DIBS to be able to reserve the study rooms. One school wide change I want to advocate for is more 15-minute parking spots by all resident halls, similar to the ones in the Village. Thank you for considering me and I would be honored to have the opportunity to serve as a senator for the Harbert College of Business.

Name: Hayden McDonald

Year: 02

Major: Accounting

Qualifications:

Harbert College of Business School's Council Member

SGA Cabinet Director of Financial Projects

Phi Gamma Delta Public Relations Chair and Alumni Relations Chair

Rising Accountant and Analyst Program

Platform: My name is Hayden McDonald and I am running to be a Senator for the College of Business. I would be a good senator because I have an unmatched love for Auburn and I want to do everything I can to make the Auburn experience the best it can possibly be for my peers. As a senator, I will work tirelessly to improve this campus to meet the satisfaction of the men and women of Auburn. During my time at Auburn, I have been involved in multiple aspects of campus and have gained experience to work with others and solve problems to create solutions that work for everyone. A few specific things that I would like to do as a senator is to create a zero-credit hour foreign language course, and revamp the athletic attendance reward program. It would be an honor to represent the College of Business this next term. War Eagle!

Name: Andrew Sadie

Year: 01

Major: Business

Qualifications: chess club president

Platform: My name is Andrew Sadie and I am running to be a Senator for the College of Business. I feel I am a strong candidate because of the opportunities, relationships, and experiences that Auburn has already offered me as a freshman. Being a freshman among Covid is difficult, and finding opportunities to get involved and build relationships during this time is also tough. I recognize that I have been fortunate enough to find and build meaningful friendships. My platform is trying to help create as many in person opportunities as possible to foster real relationships in a safe environment and meaningful way. In a time with so much divide and uncertainty I hope that the more interactions and conversations students have, the stronger the Auburn Family is. I hope to create legislation to expand the senate's reach to include liaisons or senators outside of the 34 currently in office.
