

Name: Buckley Nettles

Year: 03

Major: Communications

Minors: Political Science and Business

Qualifications:

SGA At-Large Senator – Student Affairs Committee

Auburn University Curriculum Committee

Omicron Delta Kappa Honor Society

Project Uplift Mentor

Platform:

As Vice President of the Student Government Association, I will use my voice to unite the student body and provide everyone with a deeper understanding of the core values of SGA. I am committed to ensuring that every student has the opportunity to explore and pursue their passions on campus. My platform is focused on three main points: community, education, and participation. By “Buckling Up with Buckley” I will ensure that every member of the Auburn family is well informed and has the opportunity to share their voice on Auburn’s campus.

Community:

Increasing the sense of community throughout SGA, specifically the Student Senate is one of my biggest goals as Vice President. To foster a more productive and collaborative environment, I aim to enhance engagement and accessibility. My goal is for every student at Auburn to feel welcome in approaching any member of the Student Senate, whether through participating in open forum or attending their college’s office hours. I will strive to unify the Student Government Association with every member of the Auburn student body.

Educate:

Serving as a Senator At-Large over the past year provided me with the opportunity to gain insight into the concerns of the student body. The number one complaint I heard during my term was that the general student body doesn't know what SGA is actually here to accomplish. I will strive to educate every Auburn student on the core values of SGA. As Vice President I would increase education across campus on all branches, outreach and campus initiatives, and legislation.

Participate:

As I reflect on the impact campus organizations have had on me, I am motivated to help others navigate their own college journeys. I understand how difficult it can be to find your place in a new, unfamiliar environment, and I want to ensure that other students have the resources and support they need to feel like they belong. I believe that every student deserves the opportunity to discover their passions, connect with others, and grow as an individual. I want to encourage them to take that first step, whether it's joining a club, attending an event, or even starting their own initiative if they don't see something that reflects their interests. As Vice President I will work to ensure every student is able to find their home away from home on Auburn's campus.

Closing:

As Vice President of the Student Government Association, I vow to keep every Auburn student in mind with every decision I make. I commit to dedicating my complete attention and effort to promoting these pillars of communication, education, and participation and I look forward to being able to serve Auburn University. I hope that you will choose to Buckle Up with Buckley on February 7th. It would be an honor to serve you, Auburn.
