**Major:** Finance

**Qualifications:**

Harbert College of Business Senator

Budget and Finance Committee

Concession Board Committee

Farmhouse Social Chair Assistant

Dean's List; Fall 2023, Spring 2024, Fall 2024

**Platform:** My name is Colin Hale, and I will be running for Senator of the Harbert College of Business as a part of the Strictly Business ticket. So far through my Sophomore year I feel as though this School has given me so many great opportunities and I wanted to find a way to give back. My first thought was getting involved in SGA. This is something that I feel I could put forth an immense amount of effort into and at the same time be very passionate about. My prior service experience with SGA has lit a fire within my heart for service, and I cannot wait to continue to give back to the Auburn community. If elected as Senator, One of my big ideas is to connect the Harbert College of Business with our Sports Programs and teams at Auburn. I have experienced this at first hand while trying to get a job with the basketball team but I had no connections to reach out and to make things happen. So my idea here would be to have certain people within these communities like the Head Digital Media creator or the head Game Day Experience/Marketer for each team come speak to us and let us ask questions about the job the sameway the program champions come speak to us about their specific majors. I feel like this would immediately grow interest in students for these kinds of jobs and I think it could be an immediate pipeline for more students to get involved outside of the Business School while also helping the Business School grow outside of the box. Secondly, something else I want to do is reach out to every corner of the College of Business since our school has one of the largest populations at Auburn. I would do so by sending/reaching out via email to all different sides of specific majors about their opinion on certain items that are going on within the College of Business. To wrap things up, It would be an honor and I would Greatly enjoy Serving as one of your Senators at the Harbert College of Business.
