Year: 02

Major: Nursing

Qualifications:

Auburn University College of Nursing Ambassador

First Year Seminars & Learning Community Peer Instructor

Auburn University Dance Marathon Morale Member

Alpha Gamma Delta Sorority Member

Dean's List Student

Hi everyone! My name is Keira Serrano and I am incredibly honored to be running for President of the College of Nursing. I have a wide range of priorities if elected, all centering around the word "unity". In this position, one of my main goals would be to grow a stronger, unified relationship between the College of Nursing and Auburn University as a whole. This relationship would allow for better communication, provide more opportunities, and enhance relations between the faculty and students, and the core campus of Auburn University. In another sense of unity, I would like to promote connection amongst different cohorts and pre-nursing, newly admitted, and nursing students. Through this unity, we can create an encouraging and common environment for all grades within the Nursing Building. Finding unity within our college and on campus will allow for elevation of the nursing program and opportunities brought to current and prospective students.

This past year, I have had the honor to serve as a student ambassador for the College of Nursing, through this I have gotten the opportunity to interact and work alongside faculty, personally meet prospective students, and serve at a multitude of student events at the nursing building. This experience has taught me an immense amount about what the college of nursing stands for and its dedication to its students. With this experience and knowledge, I can serve the college while knowing its values and overarching goals for the upcoming years. Having this recognition, I will be able to efficiently work with the college and its students on a day to day basis.

If elected, I hope to fulfill this role to the best of my ability while prioritizing the voices and opinions of all students that the College of Nursing interacts with. This is a position held by one but is in charge of representing all who are enrolled. Alongside the Vice President and Senator, I desire to form a strong executive board and productive relationship that benefits and represents the college as a whole. I feel that my experience, knowledge, and passion qualifies me for this role and to serve it to its fullest potential. I greatly appreciate your consideration and time reading my platform. War Eagle!
